Editor's Corner

Linda and Peter Rogan are travelling for an extended period and once again I am filling in. The last email I had from Linda placed her at the small town of Richmond in Central Queensland. Brian and I visited Richmond a couple of years ago and I wrote about its wonderful fossil museum, Kronosauras Corner.

Despite the fact that I have been unable to get to the nursery most Thursday mornings, (I am attending a wonderful U3A geology class that unfortunately is at exactly the same time), this newsletter has almost written itself there is just so much happening in the Park. I have had fantastic help in gathering news from many people. In particular I would like to thank Lyn Meredith, Lyndy Gilbert, Jan Falconer, Jason Patton and Caroline Noel. Linda did a lot of the heavy newsletter lifting before she left, for which I am very grateful. Nevertheless a few FOWSP activities may have been missed over the two months.

Mega news stories are the arrival of the FOWSP Education Centre, p2 and the opening of the Wurundjeri Interpretive Signage Trail, p1 & 3. A visit to this trail at Pound Bend will take you on an unforgettable cultural and historical journey.

The planting on National Tree Day, held at the end of July was another huge success, p4. Nursery news appears on p7

The restoration of Frogland has been an ongoing project which is now complete. Pat Coupar was at the nursery recently

(The).. striking coin shaped cut out of 'Bunjil' atop the iron foundation is symbolic of the rich Wurundjeri spirituality and connection to Country – past and present – a symbol of spiritual currency emanating confidence and strength into the future.

and was thrilled at the result., 'its been transformed', she said. The before and after photos say it all, see p8

Caroline Noel writes about one of best tags ever . A big call. Turn to p9 to find out why. A recent TAG planted out the rare Cinnamon Wattle at Watsons Creek, Jan Falconer tells the story on p9. *Photo right, more pictures p11*.

FOWSP & Manningham TAGS, Seminars and Nature Walks programs, p5-7, plus two Riverkeepers events, p2, will have us all reaching for our diaries.

I wrote about the six seasons of Middle Yarra Timelines Calendar in the recent edition of the Warrandyte Diary. September places us in Early Spring. For we obsessional lovers of native orchid species this is a magical time of the year. Photos of our stunning orchids appear on p8, 10 & 11.

Most importantly there are two phone numbers on p8 which we should all save into our phones in case we need to find help for injured wildlife.

Best wishes to all.

Joan Broadberry

Deadline for October 2014 edition newsletter is Friday 26th September 2014

contributions can be emailed to Linda Rogan editor@fowsp.org.au or posted to PO Box 220, Warrandyte 3113

EDUCATION CENTRE ARRIVES

Joan Broadberry

I gave a yelp of delight when I dropped into FOWSP on Thursday 14th August, parked my car and looked over to the nursery site. The long awaited building, the Education Centre had arrived It was standing proud, firmly placed on its concrete stumps. A few days previously the building had been temporarily relieved of its roof and transported successfully through the Park without any difficulties or damage to vegetation. Fantastic job guys!!!!

The next weekend, a dedicated team spent Saturday and Sunday working to reattach the roof. An enormous thank you must go to volunteers Jason, Gray, Brian, Josh and Kelvin, ably assisted, fed and watered by Peta, for the skill and energy they gave to completing this task. The weekend weather gods smiled and by Sunday afternoon the Education Centre was more or less waterproof. There is still more to do both in finishing the roof and fitting out the building. Eventually FOWSP will have a secure place to store and work with its

Late on Sunday afternoon, I am told, instead of going home for a well earned rest, the team actually stayed on to extend the Frogland path. I am lost for words to describe such a wonderful crew!!

many resources and a kitchen.

Last communication from Jason (August 23rd) was-"Kelvin and I are back down at the Nursery today. We sealed-up one gable-end yesterday and got the gutters done. Should get the ceiling re-attached and the other gable-end done today."

Photos: above—L-R Josh, Kelvin and Jason. below-Peta.

RIVERKEEPER EVENTS (free)

_ _ _ _ _ _ _ _ _ _ .

Upper Yarra bike ride. Join the Yarra Riverkeepers for a guided ride along the beautiful Upper Yarra River on Sunday, 21 September. The ride starts 11 am at the Upper Yarra Museum in Yarra Junction (Melways

288 D7) and follows the historical railway line to Warburton, approximately 20km return. Experts will speak about the river, its wonders and stories. For information and registration, contact Todd Holman at todd holman@hotmail.com or phone 0425 217 921.

Waterway wander and wonders. Come for a stroll along a picturesque section of the Yarra in North Warrandyte on Sunday, 5 October. The walk starts 10.30 am in front of 42 Osborne Road, North Warrandyte

(Melways 23 K10) and follows a narrow, unsealed bush track, duration 2 hours. Learn about the wonders of the river from the Yarra Riverkeeper. For information and registration, contact Ian Penrose at info@yarrariver.org.au or phone 0409 510 766

Wurundjeri Stories, interpretive signage trail launch - Lyn Meredith

The Wurundjeri stories signage in Pound Bend Reserve was launched on Thursday 14th August. Eli Pachacz, Manningham City Council's Cultural Development Officer, managed the project to ensure a strong Wurundjeri Tribe participation by provision of consultation work and

ensuring Wurundjeri decision making. Other contributors and stakeholders include Parks Victoria, Office of Aboriginal Affairs Victoria; Reconciliation Manningham and local historians Mick Woiwod, Jim Poulter and Val Polley. The signs were funded by the Federal Government, Department of the Environment grant.

L—R Working group field trip February- Mandy, Bill and Alice.

Wurundjeri Tribe artist and cultural advisor, Mandy Nicholson, and elders Aunty Alice Kolosa and Uncle Bill Nicholson provided leadership and expertise for content. They ensured that the Wurundjeri Tribe was duly

Initial consultations with Wurundjeri determined that the signs were best placed on the historically and culturally significant Pound Bend. The themes for each of the six signs, and the participants of each of the working

consulted for cultural accuracy.

sub-groups soon followed. Signage design was chosen to accommodate Mandy Nicholson's artwork. Her striking coin shaped cut out of 'Bunjil' atop the iron foundation is symbolic of the rich Wurundjeri spirituality and connection to Country – past and present – a symbol of spiritual currency emanating confidence and strength into the future.

Over 150 people attended the launch on what turned out to be a glorious sunny winter afternoon. Elder Uncle Colin Hunter Junior performed the Welcome to Country fanning ceremonial smoke by eagle feathers to envelope the crowd. A didgeridoo sounded in the back ground as Colin spoke. Councillor Meg Downey acknowledged the importance of the signage trail before inviting us to follow the trail. Colin and Wurundjeri women Aunty Alice, her sister Aunty Kitty Coombs and Mandy Nicholson then shared the role reading the signs to us. At each sign 'Bunjil' was unveiled from behind the flowering Golden

Wattle decoration. Whilst

Bill Nicholson was unable to attend the day his leadership role in the project was gratefully acknowledged.

The informative signs take the reader on a historic journey. Children are encouraged to consider Wurundjeri history and

Uncle Colin Hunter Junior

culture with a 'Bunjil's challenge' located at the bottom of each sign. The signage trail will prove to be a valuable resource for school groups and the broader community to understand Wurundjeri culture past and present. A seventh sign marking Witton's Reserve as a Wurundjeri Women's sacred space is an upstream reminder of Wurundjeri Country.

Welcome ceremony

The chorus of raucous cockatoos jostling and screeching

for attention as the signs were recited added to the great ambience of this special day. They were obviously barracking for the Wurundjeri to be out on country, making smoke and sharing stories.

National Tree Day - Sunday 27th July

Information and invitations were distributed to volunteers, kindergartens and primary schools in Warrandyte and Wonga Park. National Tree Day advertising and our Facebook page also brought the message to computer savvy attendees. The weather was spring-like and a total of 52 participants turned up.

We were delighted to see at least twenty children, including a number from the first Warrandyte Joeys. Some 400 plants were put into the soil. A BBQ luncheon sponsored by Manningham City Council went down a treat. There

was plenty of food to go around and it disappeared. Sarah Qualtrough demonstrated her face painting expertise, much to the delight of the kids. Our committee members were well represented and staff members, Sarah, Bond, Annette, Kelly and Josh also turned up. Thanks to everyone who contributed to the success of the day.

Photos by Lyndy Gilbert. Below: Sarah Q, the face painting expert.

Thanks from us all

Grateful thanks to Brian and David for their hard work in tiding up the garage shed a couple of weeks ago. What a difference you have made.

Thanks for your generosity

Quintons IGA in Warrandyte recently set up a points system to benefit individuals and all community groups who purchased groceries at our local store. A number of FOWSPIANS have kindly donated their points to FOWSP. As a result of this system, FOWSP has now collected nearly 60,000 points since the inception of the program. Your kind support means that \$600 of the running costs of the FOWSP nursery can now be covered by this points system.

Thank you to Julie Quinton and our wonderful members for your ongoing generosity.

Lyndy Gilbert, on behalf of the FOWSP committee

Manningham City Council Environment Seminars 2014

The Environmental Seminars are held on the first Wednesday of the month.

Many of the seminars will be complemented with field sessions to facilitate broader education on the topics. No bookings are required for the evening talks; but field trips must be pre-booked. This can be done before the talk, bookings are open now, however you must attend the corresponding seminar to retain your field-trip booking. Due to popularity of the field trips, bookings are limited to 3 trips per person per year.

Venue: Bull and Bush Room at the Grand Hotel, Warrandyte **Time:** 7.30 pm

Enquiries: For more information, please phone Lyn Meredith on 9840 9326. **Bookings:** Natalie on 9840 9124.

<u>Wed 3rd Sept</u>: *Butterfly and Moth Larvae* presented by Steve Williams. Everything loves moths. A huge range of creatures eat them at any stage in their life. There are more moth species in Victoria alone than all the vertebrate animal species in Australia. Despite this crucial role in the local ecosystem many researchers ignore them, partly because they are difficult to find and research. Hence many are little known. Steve will talk about the biology of these fascinating creatures, their wonderful adaptations and show some new, previously unrecorded, lifecycles.

<u>Thur 4th Sept</u>: 10.00 am – 12.00 noon *field trip: Life Histories of local Moths* with Steve Williams Steve will lead this walk along the Mullum Mullum Trail and will discuss some of the fascinating life-histories of local moths while showing how well adapted species are to their hosts and bushland setting. Be prepared to get close and personal with a caterpillar. Bookings are essential as places are limited (see above) and **you must attend the seminar on 3rd Sept.**

<u>Wed 1st October:</u> Snake Awareness presented by Sean McCarthy. We have been told that we live in a country of the deadliest snakes. What is the truth? Come along to an information session about these wonderful animals, find out what to do when you see them, how to avoid them and what to do if you do get bitten. Live animals will be present, with all venomous snakes in locked enclosures. If you wish, you can pet harmless pythons and lizards. This session will go for one and a half hours. Sean is Director of Snakehandler Pty Ltd.

Next Committee Meeting		
Date:	Tuesday 9th September	
Venue:	Ranger Station, Pound Bend	
Time:	19:30 pm sharp	

The views expressed in this publications are those of the authors and do not necessarily reflect those of FOWSP.

FOWSP THURSDAY PROGRAM

We meet for propagation and other nursery activities <u>every</u> Thursday morning at 9.30 am at the Warrandyte State Park depot, Pound Bend Road, Warrandyte (Melway 23 C10), <u>unless otherwise stated below</u>. Propagation

takes place from 9.30 am to 12.30 midday.

No prior experience necessary - There is always someone available to show you the ropes.

NURSERY OPENING HOURS

The nursery is open for plant sales (by donation) every Thursday.

9.30 am to 12.30 pm and
the first Saturday of every month, 9am to 1pm (to coincide with

the first Saturday of every month, 9am to 1pm (to coincide with the Warrandyte Market) *and* the first Sunday of each month 2 pm to 4 pm.

Nursery is closed to customers and volunteers on days of severe weather and on Total Fire Ban Days

FOWSP/Manningham Thursday nature walks Leader: Cathy Willis

This series of educational and interpretive nature walks explores some of Manningham's most inspiring and interesting bushland. During the first half of 2014 we walked sections of the Yarra River through Manningham. In the second half of the year we will explore some of the tributaries on both the north and south sides of the river.

Each walk is paced to allow participants to enjoy and appreciate the natural beauty of the area. Please wear appropriate clothing for the weather including a hat and sturdy footwear. Bring a water bottle and snack. All distances and finishing times are approximate.

9:30 am, Thursday 25th September: Mullum Mullum Creek - Mullum Mullum Park and Yarran Dheran. The Mullum Mullum Creek flows to the Yarra River from the hills that separate the Dandenong and Yarra Valleys. The Park contains remnant Valley Heathy Forest saved by the freeway tunnel, while Yarran Dheran demonstrates how an old tip site can be restored over time. Distance: approx 3kms Time: approx 3hrs Rating: moderate (some steep sections. Meeting point will be provided at the time of booking.

9:30 am, Thursday 23rd October: Watsons Creek - Happy Valley Branch. The Watsons Creek originates in Kinglake National Park. One of the tributaries flowing in as its heads towards the Yarra River is Happy Valley Creek, which dissects the One Tree Hill section of the Warrandyte-Kinglake Nature Conservation Reserve.

Distance: approx 6kms Time: approx 4hrs Rating: difficult

<u>9:30 am, Thursday 27th November</u>: Koonung Creek - Donvale to Doncaster. Much of what was once the creek valley floor is now the Eastern Freeway. Surrounded by orchards and paddocks in the first half of last century, and subsequently developed as medium density housing, it still has valuable natural assets including relatively intact stands of vegetation. **Distance:** 5 kms **Time:** approx 2.5 hrs **Rating:** easy

Ratings:

Easy – Flat or undulating well formed tracks/paths with low tripping hazards. **Moderate** – May include some moderately steep or narrow sections or have higher tripping hazards. **Difficult** – Includes steep and/or narrow sections, slippery sections, or high tripping hazards.

Bookings are essential as places are limited. Bookings open 2 months before the walk date. Meeting points will be provided at the time of booking, to book contact Natalie by calling 9840 9124 or email eepadmin@manningham.vic.gov.au

TAGS (Thursday activity groups)

TAGS meet at the nursery at 9.15 am for a 9.30 pm departure. WAGs meet at times given below, at the nursery beforehand or at the specified location. Please remember to wear appropriate footwear and clothing for the weather, and please bring your own filled water bottle. Contact number: 0408 317 327

Thurs	4th Sept	9am-12	Hochkins Ridge Resv.	Sallow Wattle removal	FOWSP/ Ranger	Moderate
Thurs	18th Sept	9am-12	Mullum Mullum, Beckett Rd.	Planting spring flowers	FOWSP/ Ranger	Moderate
Thurs	2nd Oct	9am-12	4th Hill, Whipstick Gully	Woody Weeding	FOWPS/ Ranger	Difficult
Thurs	16th Oct	9am-12	Rifle Range	Weeding Floribunda	FOWSP/ Ranger	Moderate

Difficulty ratings:

Easy: Even terrain, some light lifting, kneeling and bending involved. Few tripping hazards.

Moderate: Uneven terrain, light to heavy lifting, kneeling and bending involved. Tripping hazards present.

Difficult: Steep terrain, light to heavy lifting, working in over-grown areas and lots of bending. Many tripping hazards and slippery surfaces present.

Check the website for any changes at http://fowsp.org.au/activities.php

<u>Please note TAGS and WAGS will be cancelled on Total Fire Ban days or when weather conditions are</u>
<u>deemed hazardous.</u>

FOWSP MARKET TRAILER

Thanks to those who helped out in July and August

Diane and John Baird, Jan Davies, Jeff Cranston, Peter Kennedy, Jan Smids, Caitriona Young, Lyndy Gilbert, Ken Crook

Thanks to Carolyn Noel and Don Vincent for transporting the trailer to and from the market for June, July and August.

The Warrandyte market is held on the first Saturday morning of the month from 8.30 am to 12.30 pm at Stiggants Reserve. Volunteers are rostered in pairs to (man/woman) the FOWSP information trailer for just one hour.

If you are interested in being on the market roster for 2014 please contact Caitriona Young 9844 2842:; 0411478410; thefouryoungones@yahoo.co.uk

First timers are always paired with someone more experienced.

Future market dates are: Saturday September 6th, and Saturday 4th October

Thanks to Caroline Noel for these items

FOWSP gets a special helper. Dean is on holidays from his usual endeavour at Merrimu in Bacchus Marsh....He joined us at the nursery on Thursday 10th July. We put his particular talent of sorting to good use.

Tagging at Pound Bend Carolyn Noel

You would think that the last place it would be fun to be on a cold winter morning would be weeding and planting in a chilly tag down by the river. Not so...

On our way to the tag site we stop to take a photo of the sun shining through the mist rising off the long grass. The early morning at Pound Bend is truly beautiful. Faye spotted a powerful owl on his way home with his breakfast - a whole magpie/currawong?

Plus met the best tag team ever.... 168 plants before (a delicious) morning tea.

by Kelvin Watkins

TAG - Watson's Creek Bio-link **Project - Thursday 21st August**

On a magnificent late winter's day, nine FOWSP volunteers and five Warrandyte Rangers met with Kinglake Rangers at the Watson's Creek site for a planting session. Our task for the day was to see 450 Cinnamon Wattle plants (acacia leprosa), and just one tray of lomandra longifolia, safely and securely planted as part of the revegetation of this site. Cinnamon wattle is a rare and endangered species that is indigenous and endemic to the area, but was largely wiped out during the 2009 bushfires. Seeds from remaining trees were collected and nurtured in the FOWSP nursery and today's exercise completes the cycle.

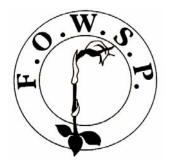

Originally cleared farmland, the Watson's Creek site was purchased by Melbourne Water in the 1960's, and later by Parks Victoria in about 2003/04. Parks had long recognised the need for a revegetation program of this important site in order to create a wildlife corridor between the Rifle Range section of the Warrandyte State Park and the Kinglake National Park. However it wasn't until after the disastrous bushfires of Black Saturday in 2009 which destroyed most of the Kinglake National Park, that the need for the revegetation of the corridor became imperative. Government money and funds from the Bushfire Relief Program became available to allow this to commence. Today, thanks to many volunteers, over

30,000 plants have been planted and thanks also to the vigilance of the Kinglake Parks staff in keeping wildlife out many of these plants are thriving and the site is barely recognisable as the bare and empty farmland it was. Additional good news is that the corridor seems to be working as intended. Recently tree goannas and tiger quolls have been found in the area, and the number of phascogales, which have been the subject of a 15 year program in the area, have been discovered to be increasing.

Thanks to many willing hands, and soft well-watered soil, the 500 plants were very quickly settled in and an enjoyable barbeque lunch was enjoyed by all.

More photos p11, email version. Jan Falconer
